Highsun Express

2018–19 Growers Catalogue

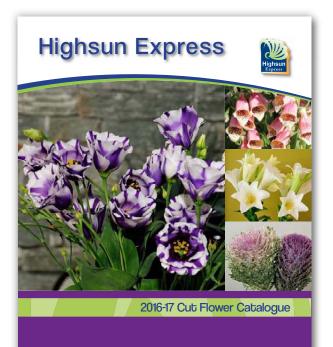

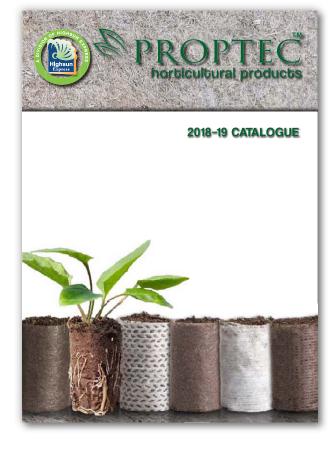

What's New for 2017 Indoor Foliage & Landscape

2016-17 Vegetables, Herbs and Fruit Catalogue

Growers Catalogue 2018

Dear Customer.

Thank you for taking the time to open our Growers Catalogue. In it, you will find a comprehensive range of bedding, potting and landscaping varieties available as plugs or seed. Our plugs are from seed except for a few premium products like our Gerbera Patio and Garvinea ranges which are from tissue culture. Highsun Express is proud of its plug quality and strives to also bring that quality to every facet of its operations. Whether you are looking for technical or sales service, Highsun Express will endeavour to assist.

At Highsun we are determined to 'exceed your expectations' with 1st class plant quality and customer service. We look forward to hearing from you.

DK. Sle

Brad Skinner Managing director

Hort @

Wholesale Seed Distribution

If you need more information about products in this catalogue please contact our friendly sales team who will be happy to assist you.

We also propagate a huge range of other plants, many of which can be found in our following Catalogues

- Vegetables, Herbs and Fruit
- Cut Flowers
- Indoor Foliage & Landscape

As a division of Highsun Express, our Proptec catalogue contains details of our propagation materials that we supply. Why not check out our website www.proptec.com.au, email us or give us a call

Agastache aurantiaca

Ageratum

Ageratum houstonianum Annual Plug lead time: 9 weeks

Aloha

Available in: Plugs & Pelleted seed Garden Height: 12-15cm Ideal for: Pots, Containers & Garden edging See p. 127 Perennial Section

Aloha Blue is as early flowering as Hawaii. Aloha works well in packs and in 100mm pot production. This type is an excellent mass market item and shows strong garden performance for the dwarf class of Ageratum.

A 5100 Blue B 4932 White

Ageratum Cloud /NEW

Available in: Plugs & Pelleted seed Garden Height: 10-15cm

Ideal for: Packs, Pots & Gardens

A brand new series bred for earliness and uniformity in the pack. Each colour is up to 7 days earlier than competing varieties and flower very uniformly across the crop, making them ideal to grow together. All three colours have smaller leaves and a more uniform habit making for a much more uniform end product. Cloud Blue also has darker flower buds, giving a more attractive appearance than varieties with pale buds.

U 5045 Pixie White

Pixie has well matched colours, a compact pack performance and well branched plant habit. Pixie comes in a unique range of colours and pastel mix is very uniform.

Alyssu

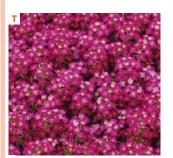

Alyssum North Face

Available in: Plugs & Raw seed

Garden Height: 13-15cm **Ideal for:** Bedding & Pots & Hanging baskets

North Face is a new tetraploid Alyssum. The larger flowers and improved vigour result in a better showing at retail or with the final consumer, whilst the lower growing and well branched habit is easier to handle for the growers.

Magic Circles Mix

Available in: Raw seed only Garden Height: 15cm Ideal for: Landscaping & Bedding - Not suitable for Potted Colour.

Amaranthus

Amaranthus tricolour Annual **Q Q** Plug lead time: 9 weeks

Early Splendour

Available in: Plugs & Raw seed Garden Height: 90cm Ideal for: Landscaping & Bedding

1037 Early Splendour

Illumination

Available in: Plugs & Raw seed Garden Height: 90cm Ideal for: Landscaping & Bedding

An attractive orange-scarlet with yellow centre on bronze leaves. Very showy wide leaves.

Tricolour Splendens Perfect

Available in: Plugs & Raw seed Garden Height: 90cm Ideal for: Landscaping & Bedding

1041 Splendens

Very colourful leaves of rich red, yellow and fresh green. Brighter colours and has more branches than ordinary Joseph's Coat. Early maturing with with stable bicolouring.

Flying Colours

Available in: Plugs & Raw seed Garden Height: 90cm Ideal for: Landscaping & Bedding

Ammi Majus

Ammi majus Annual **I** Plug lead time: 9 weeks

Queen Of Africa

Available in: Plugs & Raw seed Garden Height: 100-140cm Ideal for: Landscaping & Greenhouse

The first Ammi majus for professional use as a cutflower with characteristics as: uniform germination, even growth, strong upright stems, no yellowing of the leaves. The secondary umbels do not overgrow the mainumbel. Harvest in one go is advisable. In rainy periods Queen of Africa keeps in better shape than the conventional Ammi. Less influenced by low light conditions.

Carpet forming plants covered with tiny flowers. Slightly spreading mix.

1029 Mix

Bright crimson red on bronze leaves, colour appears about 2 weeks earlier with more branches than Molten Fire.

1039 Illumination

A mix of Early Splendour,

and

Tricolour Splendens

1038 Flying Colours

Illumination.

Antiquity

Available in: Plugs & Raw seed Garden Height: 25-30cm Ideal for: Larger containers & Garden borders

NEW

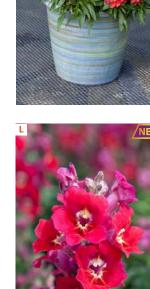

Antiquity, a new open flowered series, has extremely robust foliage and great branching, resulting in outstanding garden performance. The improved branching also makes this variety much more suitable for Summer and Autumn production, where it fills the pot better before flowering.

☑ 6946 Purple
 ☑ 6948 Red
 ☑ 6947 Red Bicolour

Bronze Dragon Available in: Plugs & Raw

seed Garden Height: 30cm Ideal for: Pots & Larger containers

N 1062 Bronze Dragon

These eye-catching, bushy, dwarf plants have the darkest, almost black foliage we have ever seen on Snapdragons. Bronze Dragon looks almost as attractive before flowering as it does when smothered in its gorgeous, purple and white coloured blooms. Truely outstanding in borders with very good rust resistance.

Antirrhinum Crackle n Pop / NEW

Available in: Plugs & Raw seed Garden Height: 15-20cm Ideal for: Pots & Bedding

Crackle & Pop is a new early flowering dwarf snapdragon with strong pack, pot & garden performance. The well branched plants are covered by well formed flower spikes which bloom in a very tight flowering window.

www.highsun.com.au

Liberty

15

Kimono

Available in: Plugs & Raw seed Garden Height: 25cm Ideal for: Pots, Landscaping & Bedding Borders.

High density crop suitable for both pots and packs. Warm colours are ideal as a multi-sow for mid summer and early autumn sales. No PGR required. Excellent series uniformity. Contains a wide range of attractive colours.

NEW

New Look

Available in: Plugs & Raw seed Garden Height: 35cm Ideal for: Bedding, Large containers & Landscaping

Large, blazing red plumes, a bushy habit with basal branching, and a decorative dark leaf colour combine to set AAS Winner New Look in a class of its own.

Phaser

Available in: Plugs & Raw seed Garden Height: 40-45cm Ideal for: Bedding, Large containers & Landscaping

3794 MIX
 3795 Red
 3796 Yellow

Phaser is suitable for green seedlings, punnets and gardens. Phaser is semi dwarf, vigorous and has a self branching habit. The long lasting flowers withstand summer heat and drought.

Celosia Bright Sparks /NEW

Available in: Plugs & Raw seed Garden Height: 25-35cm Ideal for: Bedding, Large containers & Pots

Bright Yellow Deep Rose

Scarlet

The new Bright Sparks series stands out from the competition with it's large plumes(3-4 inches tall and 3 inches wide), very well branched habit and great heat tolerance. The extra branching results in more flowers per plant and the bloom size on the secondary flowers also matches the initial flower. These blooms are also less prone to colour fade than competing varieties, leading overall to a superb and long lasting garden display.

Centaurea

Centaurea cyanus Annual Plug lead time: 9 weeks

Boy Blue

Available in: Plugs & Raw seed Garden Height: 60cm Ideal for: Bedding, Large containers & Garden borders -Not suitable for potted colour

1421 Blue

Choice Double

Available in: Plugs & Raw seed Garden Height: 90cm

Ideal for: Bedding, Large containers & Garden borders -Not suitable for potted colour

Beautiful blend of white, blue, pink and carmine double flowers on long stems.

Cool season annual often used as a cut flower because of the distinctive blue colour. Successful late spring early summer flowers. Excellent vase life.

1422 Mix info@highsun.com.au

Cerastium

Cerastium tomentosum

See p. 130 Perennial Section

Cheiranthus

Cheiranthus cheiri Annual Plug lead time: 4 weeks

Bedder Mix

Available in: Raw seed only Garden Height: 30cm Ideal for: Bedding - Not suitable for potted colour

A 3213 Mix

Dwarf variety with firm bushy habit in a range of bright attractive colours. Highly desirable for general bedding, as plants withstand windy, exposed positions.

Charity

Available in: Plugs & Raw seed Garden Height: 25cm Ideal for: Bedding & Pots

B 4290 Mix

Charity is a very unique Cheiranthus that blooms in both autumn and spring, and through the winter in mild climates. The plant is usable anytime in temperate areas as it doesn't require low temperatures for flower initiation and flowers quickly from seed the first year. Charity series has nice green foliage compared to other types. The compact plants are excellent for pots and garden use and its sweet fragrance greatly adds to consumer appeal.

Sugar Rush F1

www.highsun.com.au

Giant Exhibition

Available in: Plugs & Raw seed Garden Height: 60cm

Ideal for: Bedding & Pots

G 1473 Mix

Is a re-selection of the true old fashioned type Coleus, which first make this genus popular at the end of the 19th century. The extra large leaves are particularly showy and colourful and considered a fashionable "heirloom" plant. It is especially selected for house plant use, but is equally suitable for outdoors in a sheltered position during the summer months or as "dot plants" in summer bedding. It is suitable for year round production in 10cm pots, with a 13 week crop duration from seed.

Rainbow

Available in: Plugs & Raw seed Garden Height: 60cm Ideal for: Bedding & Landscaping

Field grown mix of all colours at an economical price.

Telstar Available in: Plugs & Raw seed Garden Height: 20-25cm Ideal for: Pots

1633 Mix (formula series colours)

Choice for pot production. An exceptional series of vibrant colours that performs very well throughout the year. Floriferous and early blooming. Heat resistant yet blooms until heavy frost. Recommended for bedding plant and landscape sales. Has a dwarf, well branched habit.

A new F1 hybrid interspecific Dianthus that holds its flowers clustered in an 'umbrella' on top of the foliage. More than 7 days earlier than competing varieties and with a superb natural dwarf habit. An excellent product for packs or small pots and with great flower presentation at point of sale.

Dianthus

Dianthus chinensis

Diana F1

Available in: Plugs & Pelleted seed Garden Height: 20-25cm Ideal for: Bedding & Pots 1627 Blueberry 1600 Crimson 3484 Crimson Picotee

- 3808 Lavender Pic
- 1601 Mix
- 3823 Picotee Mix
- 1602 Purple Centred

- 1603 Red Centred White
- 1604 Rose
- 3482 Salmon
- K 1605 Scarlet
- 1606 Scarlet Picotee
- M 1607 White

Single - Dwarf. Diana is very early and has a compact plant habit. These characteristics are the guarantee for an extremely good pack performance. Its unique compact and branching plant habit is continued in the garden and shows a vigorous low growing plant. The plants are covered all season long with beautiful large flowers.

www.highsun.com.au

Grace F1 Available in: Plugs & Pelleted seed Garden Height: 20-25cm Ideal for: Packs & Pots

Double- Dwarf. Dianthus Grace is the very first double flowered dwarf chinensis type. Like its single flowered sister Diana, it is a good strain for production in packs and pots: strong, compact and branching plants, smothered with flowers striking double which appear early. In the garden, Grace remains low growing, and its carnationlike flowers give their show throughout the season.

Merry Go Round OP

Available in: Plugs & Raw seed Garden Height: 15-20cm

Ideal for: Bedding - Not suitable for potted colour

Single flowered, pure white colour with scarlet centre. Quite uniform in its fascinating colour pattern, with a dwarf compact habit. Plants spread to 23cm, with individual flowers measuring 4cm across, flowers cover the plant completely.

Persian Carpet OP

Available in: Plugs & Raw seed Garden Height: 20cm Ideal for: Bedding - Not suitable for potted colour

Probably the most dwarf Dianthus chinensis, extremely compact with ball shaped plants. It is recommended that seed be autumn sown. To obtain the same results from spring sowing, sow very early and expose plants to cold weather conditions to induce proper flowering.

Horizon NEW

Available in: Plugs & Coated Seed Garden Height: 30-35cm Ideal for: Pots & Bedding.

Its unique combination of fast cotyledon emergence, 360° branching, small neat foliage and large flowers borne on uniform flower stems make Horizon the best choice for high-density production. Horizon requires less PGR's than competing varieties and has great garden performance, making a large, well branched plant with flowers held neatly above the foliage on strong

flower stems.

Maverick F1

Available in: Raw seed only Garden Height: 25-30cm Ideal for: Bedding & Pots

- 🗄 1728 Mix 3718 Orange Ι 1729 Pink **I730 Red** 1 4274 Rose M 1734 Violet
- N 1735 White

Mavericks were bred for high density mass production. Their open plant habit allows sunlight to shine through - even in pot tight conditions. The results are multiple flower stems, early flowers and less yellowing of leaves. Uniformity across the series means growers can expect bench run sales of 10-15cm pots and larger containers. Maverick[™] is very Cycocel responsive and is easy to control in plugs or packs.

Nano F1

Available in: Plugs & Raw seed

Garden Height: 20-25cm Ideal for: Bedding & Pots

Nano F1 is not available for Dec - Jan period.

The Geranium Nano series has a natural dwarf plant habit. Nano does not stretch, which makes the use of PGR's unnecessary. It develops a profusion of large flowers in combination with attractive dark leaves and stays compact all season long. This newly developed geranium series has the same genetic compact mass as Limbo and Mambo Petunias.

Godetia

Clarkia grandiflora Annual Plug lead time: 9 weeks

🖪 1764 Mix

Available in: Plugs & Raw seed **Garden Height:** 20cm **Ideal for:** Pots

Satin F1

Satins' dwarf plant habit, flowering season and overall habit are all extremely uniform. Especially outstanding performer as 10-15cm pot plant item, as they will flower profusely when about 17-20cm in height, without application of growth regulators or pinching. All plants are basal branching and flowers about 5cm in diameter are borne upright on dwarf plants. Highly cold resistant and will flower profusely under cool climatic conditions. Plants spread to 20cm. For best results grow on the dry side with low feed until buds show. Transplant April - May.

Gomphrena globosa dwarf Annual Plug lead time: 10 weeks

Buddy Available in: Plugs & Raw

seed Garden Height: 15cm Ideal for: Bedding & Pots

Ball shaped bushes producing masses of everlasting clover like flowers. Excellent lasting qualities. Desirable pot plant during the summer months. Suitable for bedding in warmer climates.

Otacanthus Otacanthus azureus

Annual
Plug lead time: 8 weeks

Atlantis

Available in: Plugs & Pelleted seed Garden Height: 30cm Ideal for: Bedding & Pots

1 3927 Blue

Otacanthus azureus in an ornamental crop. Otacanthus belongs to the family Scrophulariaceae and the species azureus is native to Brazil, future variety names will be inspired by names of Brazilian rivers. ATLANTIS® is a new product, from seed, which in the breeders opinion has potential to become a worldwide success. AT-LANTIS® can be used both in and outdoors.

Extra Large Flowered, upward-facing blooms. Tight plant habit is easier to produce and provides longer shelf life. Resists stretching during warm conditions.

www.highsun.com.au

Minstral S1

Available in: Plugs & Raw seed

Garden Height: 10-12cm Ideal for: Punnets & Packs

Extra large Flowered S1. Minstral is an extra large flowered series suited for

1876 Yellow Red Wing 🖪 1875 Yellow / Blotch production during cooler months for all packs and pots in-

cluding seedling punnets. Being a synthetic hybrid it exhibits the characteristics of a hybrid but the cost of an F2. Early season i.e. sown in late summer, it flowered 1-2 weeks later than the Mammoth and exhibited some stretch. But as the weather cooled it flowered the same time as the hybrids and remained compact. Extremely good value for punnet producers.

Pansy Xtrada Plus /NEW/

Available in: Plugs & Seed Garden Height: 15-20cm Ideal for: Bedding & Pots

Medium Flowers, trailing. A sensational breeding breakthrough! A real trailing Pansy from seed with true winter flowering performance. Freefall comes in a range of 5 superb colours, all with a vigorous spreading habit and medium sized flowers. The low spreading habit of Freefall makes it ideal for use in late summer production, as it is less prone to stretching. Meanwhile, the sustained day-length neutral flowering ensures greater colour even through the winter months.

The TriTunia Grandiflora Petunia Series is composed of the best performing and matching varieties from the legacy Bravo™, Ultra™ and Storm™ series to simplify your grandiflora petunia program. Matched for uniformity in habit and flowering to provide performance you can trust from the greenhouse to the garden. An array of color selections - bold bright solids, crisp bicolors, novelty veined and morn patterns.

info@highsun.com.au

Petunia Petunia multiflora

Damask F1

Available in: Pelleted seed Garden Height: 30-35cm Ideal for: Bedding, Packs & Pots

Genetically compact multiflora Petunia, vigorous plants for fast pot fill. Suitable for packs, punnets and small pots. Also suitable for warmer more humid climates where normal Petunia multiflora could stretch too quickly. Limited need for PGR'S.

www.highsun.com.au

A 6009 Mix

Horizon

Available in: Plugs & Pelleted seed Garden Height: 25-30cm Ideal for: Bedding, Packs & Pots

2455 Blueberry Sundae
2458 Strawberry Sundae

2460 Yellow

Multiflora. Early to flower and uniform in habit. Excellent weather tolerance to give strong garden performance. Horizons offer some unique colours not found in other series. Flower size is 6-7cm.

Lambada Standard Petunia

Available in: Plugs & Pelleted seed Garden Height: 25-30cm Ideal for: Bedding, Packs & pots

Multiflora. Lambada Petunias are a multiflora series with "grandiflora" flowers. Lambada Petunias are extremely early to flower in packs, compact and covered with free blooming flowers. Lambada Petunias remain very neat and compact in the garden through the entire season, making it an excellent garden performer. Excellent series for packs and pots with outstanding garden performance.

Label: Available from Norwood 51-1136

Nuvo

Available in: Plugs & Pelleted seed Garden Height: 30cm Ideal for: Bedding, Packs & Pots Label: Available from Norwood

A 4694 Mix

Multiflora x hybrida - semi spreading. Excellent pack performance and ideally suited to hanging baskets, large containers and patio use as well as the landscape. As well as spreading, Nuvo exhibits a somewhat rounded habit. Flowers are produced early and on mass. Plants do not exhibit the "bald" open habit found in some other series. Nuvo have demonstrated almost neutral day length sensitivity. Offering unique colours not currently found in other series. For landscape use we recommend 4 plants per m². Flower diameter 6cm, spread 50-60cm.

Plush

Available in: Plugs & Pelleted seed Garden Height: 25-35cm Ideal for: Bedding, Packs & Pots

🖪 5489 Blue С 5490 Deep Pink D 5491 Deep Purple E 5493 Lilac Pearl F. 5495 Red G 5499 Mix

Multiflora x hybrida - trailing/ spreading. Among the earliest and least day length sensitive spreading Petunias. Use for extra-early turns and regions with short days during spring production. Tight branching and symmetrical habit makes growing, pulling and shipping easier. Uniform flowering all over the plant.

Ramblin

Available in: Plugs & Pelleted seed Garden Height: 20-25cm

2545 Mix 2553 Violet н 5500 Sugar Plum

Ideal for: Bedding, Packs & Pots

Multiflora x hybrida - trailing/ spreading. Ramblin' trailing Petunias are the new, easy choice for growers. They were bred to have a rambling plant habit, growing only 20-25cm tall, but spreading or trailing to 75cm. They will flower 2 weeks earlier than competitive lines and are more compact and easier to maintain on the bench. Ramblin' is very free flowering and flowering occurs over the entire plant, including the crown. Ramblin' Petunias are easy to finish in colour in 10cm pots and won't take over the bench! These Petunias are very showy in large garden beds, hanging baskets and mixed containers.

Petunia Scentsation /NEW

Available in: Plugs & Pelleted seed Garden Height: 10-20cm Ideal for: Bedding & Pots.

🗾 7145 Blue

Scentsation is the first petunia to receive an AAS award for its lovely fragrance and stunning color. Scentsation's fragrance has notes of hyacinth, sweet honey and rose. Its fragrance is stronger in the evening hours, and can be experienced throughout the day as well. Scentsation is a mediumsized flower type, reaching a width of 80-100cm.

Success F1

Available in: Plugs & Pelleted seed Garden Height: 30cm Ideal for: Bedding, Packs & Pots

Earliest series, uniform flowering series for timing and habit. Semi spreading. Easy to grow with great colour intensity. Compact for packs to show first flower and well suited for large containers. Colours of note red, pink, salmon and white.

Petunia Trilogy

Available in: Plugs & Pelleted seed Garden Height: 15-25cm Ideal for: Bedding & Pots.

Trilogy is advantageous for:

Growers – No special technique, adapts to your protocol. **Retailers** – Long shelf life, no more tangling.

Consumers – Minimal care, maximum performance all season.

The plant is a mounding type with a good branching habit, and keeps their tidy, compact habit. Strong flower petals stand up to humid conditions. Reaching a height of about 15-25 cm, and a width of 50-60 cm when fully mature, Trilogy is a fabulous land-scape and container performer.

Sprinkles

Available in: Plugs & Pelleted seed Garden Height: 25cm Ideal for: Bedding & Pots.

Sprinkles is a half-height ranunculus which flourishes at relatively cool temperatures. The cheerful and abundant mix consists of eight colours: yellow, light-yellow, white, red, orange, pink, pink bi-colour and violet bi-colour. Each one a pearl!

A 2051 Mix

Rudbeckia Rudbeckia hirta Annual Plug lead time: 11 weeks

The flowers are large in size with a diameter of 10-15cm. The mix has a high percentage of gold shades, with a few lemon yellow and gold/red bicolours. This variety can withstand high temperatures and drought conditions. Spread 30-40cm.

2864 Mix (orange, yellow, cinamon bicolour)

Becky Available in: Plugs & Raw seed Garden Height: 20-25cm

Ideal for: Bedding & Pots

Denver Daisy

Available in: Plugs & Raw seed Garden Height: 45-50cm

Garden Height: 45-50cm Ideal for: Bedding & Pots

2874 Golden yellow/ red eye

Denver Daisy provides extreme heat tolerance, its summerlong flower power, with its ability to stand up under extreme weather variations. Flower power is no understatement for this beauty as large masses of golden flowers adorned with rusty red rings cover the Denver Daisy from late spring until first frost. Strong, dense flower stems (45-50cm tall) ensure that Denver Daisy will not flop or fall over in adverse weather conditions. Early flowering window. Long blooming season. Superior heat tolerance and durability.

Tiger Eye

Available in: Plugs & Raw seed Garden Height: 40-55cm Ideal for: Bedding & Pots

2872 Yellow

The first and only F1 hybrid Rudbeckia. Hybrid status means never before seen uniformity on the bench and strength in the garden.Excellent PGR response. Nicely branched plants are covered with long lasting flowers. Reduced sensitivity to powdery mildew. High value, premium product.

Salvia

Salvia splendens (scarlet sage) Annual Plug lead time: 9 weeks

Blaze of Fire

Available in: Plugs & Raw seed Garden Height: 35cm Ideal for: Bedding - Not suitable for potted colour

🔼 2883 Bright Red

Bonfire

Available in: Plugs & Raw seed

Garden Height: 40-45cm **Ideal for:** Bedding - Not suitable for potted colour

Tall bedding. Taller and later to flower than Blaze of Fire, Bonfire often produces a better show in the garden. **B** 2884 Red

Salvia Hot Shot

Available in: Plugs & Raw seed Garden Height: 30-35cm Ideal for: Pots & Packs

Hot Shot is a stand alone compact Red with outstanding performance in the pot and pack. Hot Shot is noticably brighter in colour than Mojave or Reddy and more compact. A quality red at a good price for premium punnet seedling sales.

C 6163 Red

Mojave

& Packs

Available in: Plugs & Raw seed Garden Height: 25cm Ideal for: Landscape, Pots

D 4929 Red

Dwarf Bedding. Standard variety for garden use, bright red stocky flowers.

Reddy

Available in: Plugs & Raw seed Garden Height: 30-35cm Ideal for: Pots & Packs

Salvia reddy is quite simply the best salvia available for pots and pack production. Bright compact flower spikes are produced very early making 1st class packs. Purple is a standout against all other purples on the market with deep colour and non fading. It combines well with another traditionally difficult colour White, in the Cleopatra mix. The white is very clean and clear.

A 6165 Mix

Showstopper Mix combines the unqiue quality and colours of the Reddy purple, White Surprise, Salmon, Rose and Hot Shot Red for an eyecatching tray of pots.

Sizzler

Available in: Plugs & Raw seed Garden Height: 30-35cm Ideal for: Pots & Packs

Dwarf pot. Bred for early flowering in packs and pots. Performs well in the garden. Free flowering, day length neutral, with dark green foliage. Contains some unusual bicolours.

Steady Available in: Plugs & Raw seed

Garden Height: 35-40cm Ideal for: Bedding & Garden G156 Burgundy 2908 Mix
 G157 Purple
 G158 Rose Bicolour
 G159 Salmon

Salvia Steady is a compilation series selecting the best colours from varieties in this category. Steady deliveries uniform garden performance across all colours for timing to flowers, number of flower spikes at first flowering and simply colour intensitty. Steady will grow to 40 cm, has compact flowers & spikes with deep green glossy leaves.

Available in: Plugs & Raw

Garden Height: 40-45cm

Ideal for: Bedding, Pots &

Salvia Salvia farinacea (mealy cup sage) Annual

1 3410 Blue 3407 White

Packs The long dense, unique deep violet flower spikes create a sharp attractive contrast to the deep green foliage. At 45cm, Evolution is more compact than other varieties of this species. Its well branched habit yields an increased number of flower spikes. The novel colour and outstanding garden performance won the new Salvia many coveted international awards. Evolution is an excellent summer pot item and impressive when used in mass plantings and large beds.

Streptocarpus Streptocarpus x hybridus Annual

Plug lead time: 11 weeks

5303 Mix

Cape Cool

Available in: Plugs only Garden Height: 15cm Ideal for: Pots

Once a favourite house and pot plant, production difficulties have gradually led to a decline in popularity for Streptocarpus. Floranova hope to buck that trend with the introduction of the new seed raised variety Cape Cool, which is available now as pelleted seed with 90% germination. The modern Cape Cool genetics have a neater plant habit and produce more flowers than old heritage varieties. Being raised from seed they are also less prone to disease than varieties raised from leaf cuttings. Cape Cool thrives in a warm, shaded environment and can be used both inside and outside.

4063 White

Snow Lady Available in: Plugs only Garden Height: 25-30cm Ideal for: Bedding, Pack & Pots

Ordering Contract Plugs

Thank you for placing your plug order with us. We take great pride in producing top quality plugs to suit your requirements. We understand for many, purchasing plugs is a whole new experience, therefore we aim to make this procedure as simple and accurate as possible for you. Please read the information below so that you have an understanding of the ordering process.

1. Placing a contract order

All orders are required in writing, where possible by email info@highsun.com.au or fax 1800 644 015, before seeding can proceed, as it is important we clearly understand your requirements.

Verbal orders and changes to existing orders will require written confirmation. We encourage Contract Orders to be placed at least 4 weeks before seeding date to ensure seed supply. For tissue culture lines we need 4-8 months to ensure TC supply.

2. Order confirmation

The Order Confirmation form is important an document. After entering your order into our system, an Order Confirmation will be forwarded to you, please retain it for your records. This is confirmation that we have correctly entered your order. It is the customers responsibility to read the Order Confirmation carefully, checking that the variety, colour, quantity and expected due date/s are correct. Please read the Terms & Conditions of Sale recieved with your Order Confirmation.

If you do not receive an Order Confirmation within 10 days of placing your order, **your order is not in our system**, therefore you should contact us. Your payment terms and value of the order, will be recorded on the Order Confirmation.

3. Order timing

Please allow a growing time of 6 - 12 weeks for most crops. Up to 16 weeks for spring deliveries of Lisianthus is sometimes required. The expected due date on the order confirmation is accurately given for normal weather conditions. Unseasonal heat or cold can vary that date by up to 2 weeks for longer term crops. It is our policy to attempt to give you an advanced warning of any major variance to the expected date. 138

Orders placed for ASAP will not be seeded until the following week and then **only if the seed is available.** Please note abnormal

weather conditions may affect the expected due date.

4. Order tracking

Your plants will be checked regularly during their time with us. Scouts with the use of hand held scanners will check point the status of the plants back to our Production Team

You will be notified by Customer Service of any variations to your order.

5. Despatch

You will be notified the week prior (Thursday or Friday) to the despatch of your plants. If you would like to receive full cartons, you can order excess stock at this time. Depending on the tray size,

the average carton will hold 4 to 8 trays.

Customers on Prepaid terms will be sent a payment form. Payment will need to be finalised by 12 noon the day prior to despatch. Consignment details are available by request.

6. Holding plants

Not a preferred option, however we offer it as a last resort, IF SPACE PERMITS IN OUR NURSERY. A hold request form will have to be signed and returned to us in order for your plants to be held.

Due to the nature of plugs we cannot guarantee the plants will remain at our normal shipping standard, as shown in the catalogue.

No credits for oversize and subsequent problems will be given for plants that are held in our nursery beyond the original shipping date, as we accept no responsibility for the quality of held plants.

7. Indent seeds

Indent items require an additional 4 weeks lead time to allow for seed to be sourced.

8. Order variations

Any variations to your Order must be received in writing, prior to us purchasing the seed. Contact our office to confirm any variations to your order.

9. Order cancelation

Orders may be cancelled prior to the seeding date only if the seed has not been purchased, and only with the consent of the seller. We can not cancel the order after the seeding date and an invoice will be raised with the amount shown on the order confirmation once your plants are ready. If requested Highsun will endeavour to on sell plants on the customer's behalf. There will be an admistration fee of 15% of the value of the goods on sold for this service. All cancellations must be in writing.

Plugs shipping information

Highsun orders are packed in brand new, specially manufactured, white coloured, sun-reflecting cartons with special inserts to ensure that the plug trays stay secure during transit.

Plug prices quoted include packaging but not the freight. A freight charge per plug applies based on the prevailing tariffs of the carriers utilised, unless transport arrangements are made by the customer.

A door-to-door transport/ delivery system is in place for most customers throughout Australia. Customers outside our normal delivery areas will be asked to indicate their preferred transport-operator and cover their own freight costs.

Plugs freight obligations Customer Responsibilities:

• Respond within 24 hours to the call from the transport company to pick up the goods. It is a good precaution to contact the transport company if you have not heard from them within 48 hours of stock having left our company.

- Receive shipment and sign for it
- Inspect shipment in carriers presence

• If damage is evident, contact Highsun Express Plugs within 24 hours

Highsun Express Responsibilites:

• Highsun Express will notify you of the day the goods will leave the nursery

• Your plants will be packaged to the best of our ability to withstand handling and movement on the regular transport routes to all major centres in Australia

Plugs interstate inspections

Highsun Express plugs is a Nursery and Garden Industry Australia (NGIA) accredited nursery. To comply with requirements the strict for movement of plant material interstate, we have implemented a complete pest and disease monitoring system throughout the entire nursery. This system conforms with the very strict WFT protocols and involves fortnightly inspections and regular trap monitoring. Queensland Each week Department of Primary Industries carry out a visual inspection to ensure we comply with all regulations. This enables us to export our products to all states in Australia.

Fire ants

Highsun complies with all Fire Ant regulations and employs a strict Risk Management Strategy to prevent any potential Fire Ant problems. Highsun is accredited to send plants to all states in Australia.

Surplus plants

Highsun predominantly grows plugs to contract order but often have surplus stock available. The surplus Retail List is published on a Thursday for delivery of plants the following week, while the Inventory List is published on a Monday and forecasts surplus plants potentially available for despatch in 2-3 weeks time.

Please note that all stock is allocated on a first in, first served basis so please order early to avoid disappointment.

You can receive the Inventory and/or Retail Lists by weekly email or fax. Please access the lists directly from our website www.highsun.com.au or contact Customer Service to be placed on an automated list.

Cultural information

A library of cultural information has been collated and is now available in Adobe Acrobat pdf format.

To recieve the cultural information please contact Customer Service by phone 1300 137 584, free fax 1800 644 105 or email info@highsun.com.au

Seed types

Highsun offers you the latest in seed enhancements for precision seeding, clear seed visibility and optimum germination and seedling vigour. The seed type is displayed in the catalogue as:

Coat = Coated seed **Pell** = Pelleted seed **Det** = Detailed seed **Prim** = Primed seed **Seed** = Raw seed **Mult** = Multi Pelleted seed

Coated

Some seeds are coated to provide uniform size and shape for seeding. Improves flow and individual sowing through automatic seeders. Uses bright colours to improve visibility.

Detailed

Marigold seeds are treated to remove fuzzy tails. Minimises the risk of disease, which is carried in the tail. Improves flow and placement of seeds in plug trays.

Multi Pelleted

Multiple seeds are enclosed in each pellet. Allows for uniform sowing of multiple seeds per plug.

Pelleted

Small seeds are coated to allow more manageable, uniform shape. Allows easier handling for more reliable, faster mechanical sowing. Uses bright colours to improve visibility.

Primed

Seeds are treated to begin the biochemical process of germination then stopped just prior to radical emergence. Provides maximum and faster germination, even under a wider range of temperature and environments. Primed seed must be properly stored and used within 6 months of receival.

Images

For any images of plants required please send your request to: info@highsun.com.au and Highsun Express will gladly assist you.

Highsun Express Claim Procedures - Plugs, Seeds and Proptec

Highsun is committed to maintaining the highest level of customer service and product quality. If you have an issue with our products, we want to know about it as soon as possible so that we can work to resolve the issues both internally and with our vendors and distribution channels.

Please determine the type of claim/claims you would like to make and follow instructions below:

Delivery: A delivery claim may include late or non-delivery of product, visible damage to a shipping container, material damaged by temperature, missing items, trays or cartons, unordered material included in a shipment or any other delivery issues

- Contact Highsun within 24 hours of receipt
- Include:
 - Photos clearly identifying the issue
 - Batch and item number of the goods
 - Con-note number and/or delivery time
 - Order or Invoice number

Invoice: An invoice claim may include incorrect pricing, incorrect freight charge, incorrect miscellaneous charge or other price or invoice issue.

Contact Highsun within 48 hours of receipt of invoice

Plugs Quality and Growing Claims

Quality: A quality claim may include suspected disease issue, suspected fertility issue, poor root development, incorrect plant size or tray size, pest issue or any additional quality issues

- Contact Highsun within 48 hours of receipt
- Include:
 - Photos clearly identifying the issue
 - Batch and item number of the goods
 - Con-note number and/or delivery time
 - Order or Invoice number

Growing: A growing complaint may include plants not performing to type, incorrect or deformed flowering or other growing issue which appears after the initial receipt of the goods.

Contact Highsun as soon as the problem becomes apparent
We will request that photos are provided to help diagnose the problem as best as possible

- Issues to be discussed at the time of lodging the complaint:
 - Conditions of the growing area
 - Environment of the growing area
 - Water quality and media quality

• We may require further plant or media testing to help determine the growing problem at hand

Seeds Quality Claims

Quality: A quality claim may include poor germination or vigour, incorrect plant type to the variety ordered, or other quality issue • Contact Highsun as soon as the problem becomes apparent. Time limits may apply:

 Vigour and Germ: Up to 3 months from the delivery date

• We may request that photos and samples from the product in question are provided to help diagnose the problem as best as possible

- Issues to be discussed at the time of lodging the complaint:
 - Conditions of the seed storage
 - Some particulars on growing conditions

Proptec Quality Claims

Quality: A quality claim may include suspected disease issue, suspected fertility issue, poor expansion of coir, or any additional quality issues

• Contact Highsun as soon as the problem becomes apparent. Time limits may apply:

- Jiffy disc expansion: Up to 6 months from delivery date
- Papertec Fertiliser and Media quality: Up to 2 months from delivery date

• We may request that photos and samples from the product in question are provided to help diagnose the problem as best as possible

Issues to be discussed at the time of lodging the complaint:
 Conditions of the storage area

Please ensure that you send all requested photos to info@ highsun.com.au and quote your claim number where applicable so we can match the photos to your complaint.

For further assistance contact us on 1300 137 584 or alternatively info@highsun.com.au

Tray types

72 Cell Plug Trays

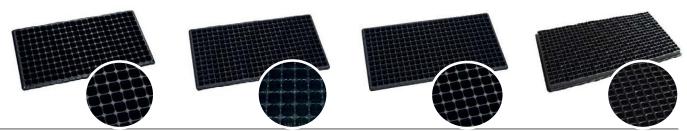

Nearly all of the varieties listed in the grower catalogue are available as plugs in various tray sizes.

Tray sizes are categorised by the number of cells per tray and range from large plugs in 128 trays, medium plugs in 288 trays which are ideal for cut flower growers and potted colour growers, through to small plugs in 512 trays.

128 Cell Plug Trays

See the Highsun Express price list for detail on tray sizes and prices by product.

Highsun Express Plugs, Seed, TissueCulture-Terms and Conditions of Sale

Ordering

Place all orders in writing. Where possible order by email info@highsun.com.au or free fax 1800 644 015, stating product tray size, quantity and date required. A four week lead time from placement of order to seeding is required to ensure timely scheduling and planting of your order. For tissue culture products, a four to eight month lead time is required from the tissue culture laboratories. You may change your order (in writing) up to the time of seed and and tissue culture purchase

Minimum Seed Order Quantity

The sum of the individual items must be equal to or greater than \$50 nett. Individual varieties are offered as a minimum nett \$20. Where the quantity ordered does not meet the minimum required, Highsun Express reserves the right to supply and charge for a greater quantity to neet the minimum stated

Deposits Confirmation

In some cases, deposits will be required, e.g. custom seeding / planting, new customers and large orders. Upon processing of your order an "Order Confirmation" will be forwarded. Orders should not be taken as accepted unless an "Order Confirmation" is received, whereupon the terms and conditions of trade shall be deemed to have been accepted and understood. All information you will need when making an inquiry into an existing order will be found on the Order Confirmation. Due date is approximate only. Please allow for this when ordering.

Order Cancellation

Order Cancellation - Seed or Plugs: You may cancel prior to the seed date only if the seed has NOT been purchased and only with the consent of the seller. Under no circumstances will cancellations be permitted after the seed date, as listed in the 'Order Confirmation' has passed. An invoice will be raised for the amount as shown on the "Order Confirmation" once your plants are ready. ALL CHANGES / CANCELLATIONS MUST BE IN WRITING. By customer request, Highsun will endeavour to ''On Sell' plants on the customer's behalf. The customer will incur an "administrative fee" of 15% of all goods on sold for this service.

Order Cancellation - Tissue Culture: You may only cancel pre-ordered Tissue Culture if the Order Cancellation - Tissue Culture: You may only cancel pre-ordered Tissue Culture if the Tissue Culture Laboratory allows us to cancel and only with the consent of the seller. Under no circumstances will cancellations be permitted once the Tissue Culture Laboratory has begun its internal processes. Additionally, Highsun Express utilizes both domestic and international Tissue Culture laboratory to cancel an existing order. An invoice will be raised for the amount as shown on the "Order Confirmation", once your plants are ready. ALL CHANGES / CANCELLATIONS MUST BE IN WRITING. By customer request, Highsun will endeavour to "On Sell" plants on the customer's behalf. The customer will incur an "administrative fee" of 15% of all goods on sold for this service.

Substitutions

Substitution could occur in the event of seed supply problems, UNLESS WE ARE ADVISED OTHERWISE

Shipping Information

Freight is added to the invoice. We arrange shipment by air, road or rail. In some cases the customer is required to arrange pickup and transport from the airport/depot to nursery. All shipments go forth at customer's risk.

Seed Shipping Information

Orders under \$500 will have freight added to the invoice. We will arrange shipment via Express Post. All shipments go forth at customer's risk.

Seed Freight Liability

Highsun Express accepts no responsibility for damage or delay following delivery to the original carrier. We will however, claim on the customer's behalf the cost value of the damaged goods provided Insurance has been taken out.

Customers Responsibilities

Respond within 24 hours to the call from the transport company to pick up the goods. It is a good precaution to contact the transport company if you have not heard from them within 48 hours of stock having left our company. In the event of a missing consignment, 1st contact should be made to your receiving depot, advising them of the consignment note number and date the goods left the nursery. Receive shipment and sign for it. Inspect shipment in carrier's presence; if damage is evident, contact Highsun Express within 24 hours.

Highsun Express Responsibilities

Your plants, seeds and propagation supplies will be packaged to the best of our ability to withstand handling and movements on regular transport routes to all major centres in Australia

Property & Risk

Property in and title to the goods shall remain with Highsun Express which reserves the right to dispose of the goods until such time that all moneys owing by the Buyer to Highsun Express have been paid in full. The risk in the goods purchased shall, unless otherwise agreed in writing, pass to the Buyer immediately upon the goods leaving Highsun Express premises.

Pick Up

Orders may be picked up if you prefer. Please allow 24 hours lead-time

Pick Up hours are

Summer period: 9 a.m. - 4 p.m. Tuesday to Thursday. 9 a.m. - 12 noon Friday. All other seasons: 9 a.m. - 4 p.m. Monday to Thursday. 9 a.m. - 12 noon Friday. Closed Weekends & Public Holidays. To ensure optimum plant quality, orders MUST be picked up on the day agreed upon by the custome

Holding Stock Past Due Date

We can only hold plants if space permits. Due to the nature of our plants we cannot guarantee the plants will remain at our normal shipping standard. No credits for oversize and subsequent

problems will be given for plants that are held in our nursery beyond the original shipping date, as we accept no responsibility for the quality of held plants

Payment

- All new customers' orders are to be prepaid. Payment can be made by: Direct Deposit to our Bank Account (please fax or email receipt of bank deposit).
 - Credit Card: Visa, MasterCard
 - Cheque or Cash.

Payment is to be received by us by 12 noon the day before dispatch. Customers will remain on prepaid trading terms until an application for credit is approved. Highsun Express will require an original completed, signed and approved Credit Application form, before a credit account is opened.

Terms for Approved Customers

Net 30 days from date of statement. After 90 days outstanding, credit will be stopped. Interest will be charged on accounts over 90 days, at 1.5% per month.

Product Claims

Customer Service must be called within 48 hours of receipt if claim is to be honoured by Highsun Express. If you are not satisfied with the product/s and would like to request a credit, photos of the products must be emailed to <u>info@highsun.com.au</u>, or posted Atten: Customer Service, with complete details of the claim. Short count claims must be made within 48 hours of receipt of plants. Before you call, please check:

- Be sure you receive the number of plants you were invoiced for. Time goods left our nursery and time you received them.

Force Majeure

If Highsun is unable wholly or in part by reason of force majeure to carry out any of its obligations under these Terms and Conditions, at the option of Highsun:

(a) That obligation will be suspended for so long as it is affected by force majeure during the tinuance of the force majeure; or

(b) The contract for the supply or sale of the Goods pursuant to these Terms and Conditions will be terminated.

If Highsun elects to terminate the contract for the supply or sale of Goods pursuant to these Terms and Conditions Highsun must notify the Buyer of the termination. The Buyer acknowledges that Highsun is not liable for any breach of these Terms and Conditions, or any acknowledges that Highsun is not liable for any breach of these Terms and Conditions, or any failure to supply the Goods, or for any delay in supply of the Goods, or for the termination of a contract for the supply of the Goods pursuant to these Terms and Conditions caused by force majeure. The Buyer acknowledges that if Highsun elects to terminate the contract for the Goods the Goods, Highsun will be under no obligation at any future date to deliver the Goods the subject of the terminated contract. In this clause 'force majeure' means an act of God, strike, labour dispute or other inference with work, War, blockade, disturbance, flood, explosion, governmental requirement, intervention or embargo, unavailability or delay in availability of raw materials, equipment or transport and any other cause whatsoever (whether or not similar to those specifically enumerated above) which is not reasonably within the control of Highsun or not similar to t control of Highsun

Prices

Prices shown in the catalogue of Highsun Express may be varied without notice to the customer at any time. Highsun Express reserves the right to correct errors on invoices. Prices quoted in our catalogue do not include GST. Confirmation prices do not include freight.

Vegetative Products

Customers who have purchased or will purchase any vegetative cuttings from Highsun Express will only use said plants for cut flower or pot production and shall refrain from any type of propagation of these plants. Propagation shall mean to increase or reproduce the supplied plants. Highsun Express can commence legal proceedings against offenders of this provision for damages and costs. Every endeavour will be made by Highsun Express at all times to ensure that plants are

propagated from reliable stock to accepted industry standards of quality and performance

Disclaimer: Significant variations in seed & tissue culture, variety and crop performance, in results and in crop outcomes may occur depending upon geographic location, climate, soil type, soil conditions, cultural and management practices and other growth and development factors. Any cultural and descriptive information or other advice, recommendation, information, assistance or service provided by Highsun Express is intended as a general guide only and should not be relied upon and is provided without liability or responsibility (including for negligence) on the part of Highsun Express. It is recommended that in all cases a small scale trial production is undertaken in order to test local conditions and circumstances that may affect the crop.
